

CO₂ BENCHMARK AND REDUCTION SUPPORT FOR SME

Because you care and now your clients and governments also do.

Do you want to know more about your company's carbon footprint? To join the energy transition and reduce your footprint? To prepare for upcoming legal requirements from the EU's corporate sustainability reporting directive (CSRD)? To meet your (potential) clients' concerns and requests? Our webtool helps SME's to evaluate and reduce their carbon footprint, together with their employees.

How does the platform work?

- ### 1 CO₂ Emission Estimation

Let our user-friendly interface guide you and your colleagues to easily estimate and assess your company's carbon emissions, from your different sites, transportations, commuting, ...
- ### 2 Scope Analysis and Benchmark

Get insight on your footprint. Figure what causes the largest impact: on-site consumption, mobility, ? Compare results between parts of your company and with reference numbers specific to your sector and country.
- ### 3 Investment Solutions

Get tailored solutions to reduce your footprint across and with your whole organisation. Improve your company's assets (buildings, vehicles, ...) and get your employees on board, helping also to reduce their commuting and teleworking footprint and cost.
- ### 4 Improvement Tracking

Track your improvements year after year on the platform, and download your data and insights for further analysis. Do you want further support? Contact us!
